LEADING BEHAVIORAL HEALTH SERVICES

Expert, mobile behavioral health services help students triumph over emotional and mental health issues

MyCollegeDoctor.com serves as an effective extension of healthcare resources in supporting and treating student emotional and mental health. Overall, we understand that the transition to a college or university may bring significant challenges or environmental changes. According to the National College Health Assessment, three out of five students experience behavioral health issues, but only 15% seek help at on-site counseling centers.

Our expert behavioral health clinicians provide assessments, diagnoses, consultations, and brief psychotherapy to address various mental and emotional needs via phone or video chat. The first two 50-minute sessions are free. Afterward, members may continue therapy and/or psychiatry sessions for a fee.

Research conducted by the **Association for University and College Counseling Center Directors** found the most common collegiate behavioral health issues are:

Anxiety
48.2%

Depression
39.1%

Stress
34.5%

BEHAVIORAL HEALTH BENEFITS

- **CONVENIENCE:** Tele-behavioral health allows students to receive help via phone or video chat. In many cases, tele-behavioral health services remove barriers and make therapy accessible to those in need.
- **SERVICE AVAILABILITY:** Our program provides timely contact and connection with a behavioral health clinician.
- **QUALITY OF CARE:** Members are connected to the appropriate expert clinician following an assessment.
- **CONTINUITY OF CARE:** Members are offered real-time access to behavioral health assessments along with recurring treatment from the same clinician each time.
- **SECURITY AND PRIVACY:** Members and clinicians engage in private treatments via phone or video chat.
- **AFFORDABILITY OF CARE:** Two free 50-minute sessions are included.

EXPERT WELLNESS COACHING

Accountability-driven wellness coaching for positive, long-term lifestyle changes

MyCollegeDoctor.com offers a revolutionizing wellness coaching program tailored to help members achieve long-term success. Our wellness program has trained nutritionists, personal trainers, and life coaches expertly trained to help facilitate positive behavioral changes that improve overall health. From smoking cessation to weight management, our accountability-driven coaching is done by phone or video chat. This allows students to receive personalized education, training, and encouragement from the privacy of their dorm rooms or off-campus.

Wellness coaches work with members to build self-confidence to exert control over one's behavior and personal environment for lasting, positive changes. Our member-directed approach focuses on improving one's total well-being by addressing emotional, physical, and practical components.

Our coaches are National Certified Health and Wellness Coaches, the highest standard for wellness coaching regulated by the National Board of Medical Examiners (NBME), and the International Consortium for Health and Wellness Coaching (ICHWC).

Together, members and coaches mutually design wellness plans around the following:

- Weight Management
- Fitness and Exercise
- Tobacco Cessation
- Stress Management
- Lifestyle Improvement
- and more!
